BeaCon Open Health Registry (OHR)

Use and Navigation

Is the OHR Free? Who Can Use It?

The OHR is free for data entry and for study

Must be registered to study the public data

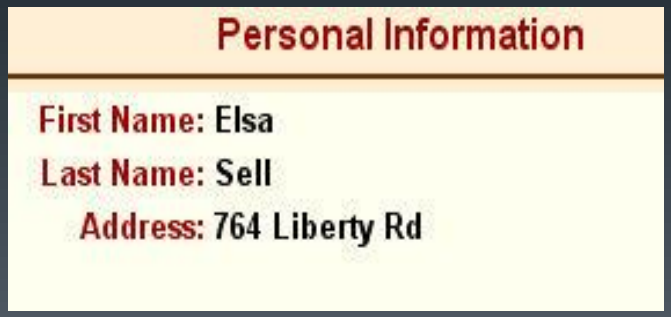
Information

- Owner
- Dog
- Health problems
- Health screening tests
- Death
- Reproduction (male and female)

Viewing Information

A Home Page

Data from the database are displayed but cannot be changed.



A Form Page

Data are displayed in fields and can be changed or new data can be added to an empty field.

Submitting Data

- Every form page has an add or submit button on the bottom left
- The add/submit button must be clicked to send info to the database
- Think of this like filling your gas tank
  - To make gas flow into the tank you have to hold the lever in the handle.
  - To enter data you have to click the submit button.

Required Data

- Required fields have a light yellow background. If you don’t fill these in, you will get a message to do so

- If you don’t fill in required data fields, you will get an error message telling you what is missing

Pedigree

- Pedigrees are created offline so it can be several weeks before they are posted
- Once a pedigree is posted, the owner is notified by email.

Session Time Out

Session Timeout

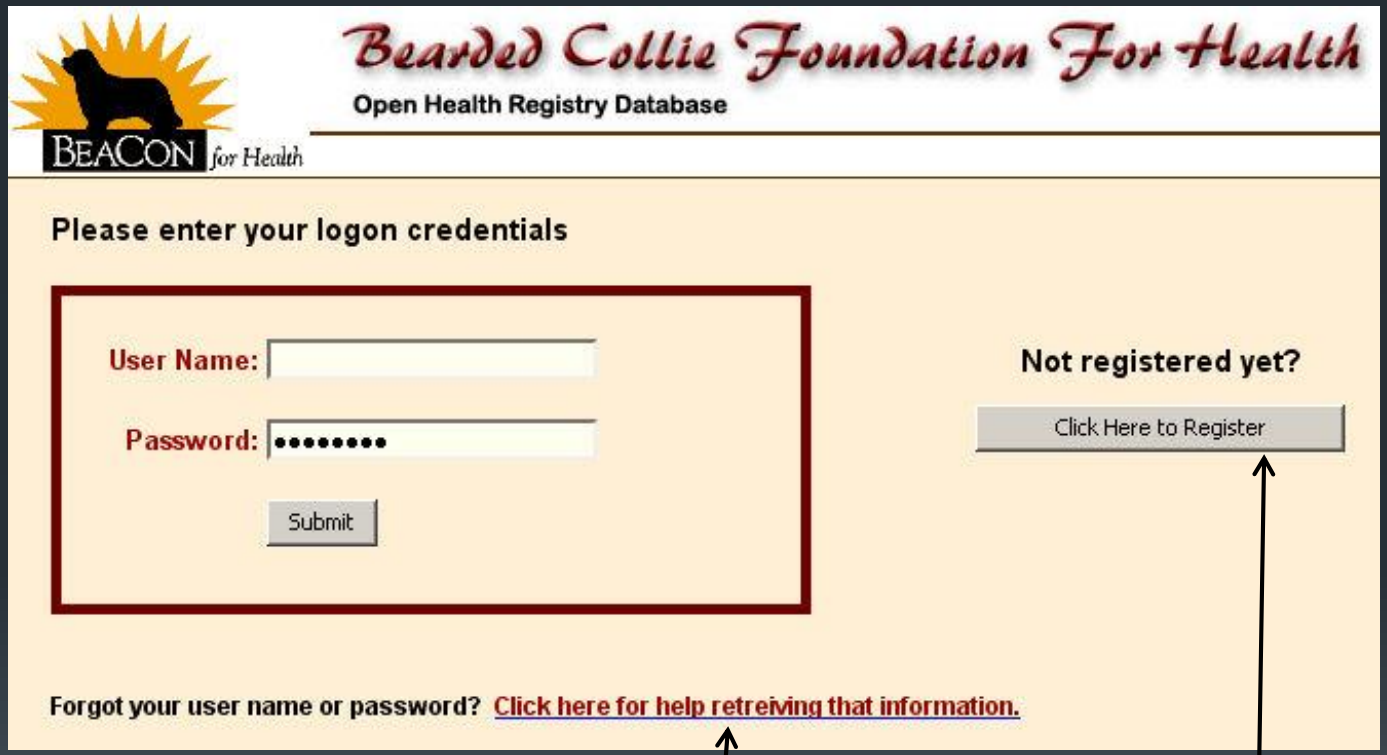
Your session has timed out on the server and you have been automatically logged off. This is most likely due to inactivity. Unfortunately this is necessary when there can be large numbers of people accessing a database. Thank you for your understanding.

You will need to logon again to access the BeaCon Open Health Registry Database. Click on the button here to go to the logon page.

Click Here to Go To The Logon Page

The session together before you begin. timeout is set at 20 minutes so have needed information

Log In
www.beaconforhealth.org/sqlweb



If already registered, enter username and password and click submit; if you need log in info click here

If you are not registered, click this button to start

New User Registration

Co-owner Consent Notice

Co-Owner Consent Reminder

Just a reminder that if the owner or co-owner(s) you listed are not a member of your immediate family, you must obtain consent from those persons and submit it to BeaCon. You can find the owner consent form at:

http://www.beaconforhealth.org/Online_OHR_consent.htm

(Note: if you use this link, it will open in a new window.
Please make sure you do not have popup's blocked for www.beaconforhealth.org)

OK

Owner's List of Dogs

After adding a dog, a list of your dogs is displayed

Any dog with a co-owner will initially appear in blue because it is not for public display

Click the view button to open a dog's home page

Dog Home Page

Review info

Click a nav button for new screen to enter info

Obtain Sally's consent so info can become public

Click here for form to add or change info

Click here to find family members

Family Members

The search for family members works only if names of sires and dams are spelled identically for each dog.

If you’re certain that a relative is in the database but it is not displayed when you click on the search for family members, please report this to one of the email addresses given at the end of the presentation.

Health Problem Form

Fill in age

Select diagnosis

Fill in a form for each problem

Click the add button to send info to database

Submit Search | Return To Search Options Menu

Reports

Reports can be viewed and printed. The sponsor report is not current. Some reports can be very long; view before printing.

Updating Info in the OHR

- You may update your personal or dog's information at any time. Just log in and proceed.
- Yearly update reminders are sent in January. These go to owners who have at least one living dog, have logged on in the last 5 years, and have not entered info in the prior 4 months.
- Those without a current email addy receive reminders by snail mail.
- Help us save postage by providing a current email addy.

For Assistance

- Send email to:
  - beaconbb@bellsouth.net or
  - dottiedofinklestein@beaconforhealth.org
- Response should be in a few days. Work is done by a volunteer so be patient.
- Send complete error messages if any, to help resolve problems.
